## PERFORMANCE + EFFICIENCY

For new construction, Nottingham vinyl siding is the ideal choice. A double-staggered nail hem makes for efficient installation — no wasted time cutting nail slots over studs. Extra thick panels defy wind and weather. And careful detailing creates the look of freshly painted wood and distinctive shadow lines in a durable, hassle-free finish.

## PERFORMANCE

- .044" panel thickness for maximum strength
- Double-staggered nail hem for easy installation and secure attachment to your home
- Color-through technology reduces the appearance of scratches
- Won't peel, flake, check or craze like paint
- Resists winds up to 175 mph\*

## STYLE

- Decorative colors with ultra-low gloss finish
- Authentic wood-like texture
- Available in D4 Traditional Lap and D4.5 Dutch Lap styles
- 5/8" panel projection creates deep shadow lines

## DEPENDABILITY

- Limited Lifetime Transferable Warranty
- Virtually maintenance free

\* Tested in accordance with ASTM D5206. Windspeed rating will vary depending on specific code region and construction method. Refer to local building codes for detailed requirements concerning allowable wind loads and specified conversion tables for actual windspeed.
